

**Beekmantown Central School District**

**Policy Committee**

Place: **Superintendent's Office**

**April 7, 2015**

**Minutes**

Attendees: Eric Anderson, Board Member  
Debbie Passno, Board Member  
Daniel Mannix, Superintendent

Others: Amy Campbell, BMS Principal  
Gary Lambert, Technology Coordinator

Meeting called to order at 5:40pm

1. Policy 1420 Complaints about Curricula or Instructional Materials – Committee recommends adding some language to include the teacher and principal before submitting the complaint to the Superintendent.
2. Policy 2210 Board Reorganizational Meeting – Committee recommends updating the list of items based on what is currently being done at the Board Reorganizational Meeting.
3. Policy 8112 Health & Safety Committee – Committee recommends the addition of language to indicate a representative of the committee and not the entire committee needs to be involved in all items listed in the policy. This is to reduce the burden on the entire committee as well as provide safety and security for the district, since some topics may be confidential.
4. Technology Committee policy recommendations – Gary Lambert provided a review of the policy recommendations from the Technology Committee, which includes a policy governing Bring Your Own Technology (BYOT), regulations on Photographing and Videotaping, and the Use of District Telecommunication Systems. The committee had a lengthy discussion on each of these recommended policies, including how these policies will be rolled out. The Committee recommends adopting all of these policies and regulations with only a few minor changes from what was presented by Mr. Lambert.

Meeting was adjourned at approximately 7:10 pm.
