2. Describe the process through which the persons involved in the planning were selected by their peers.

All administrators in the district worked on the plan.

3. Describe the process through which they participated in preparation of the plan.

The administrative staff worked as a group on their input into the format of the needs assessment and the interpretation of its results. They made suggestions for initial input and for revisions of the rough draft.

They also worked with the superintendent on the analysis of the survey results, and made suggestions regarding the required day and other offerings.

PART I  
OTHER SCHOOL SERVICE PROFESSIONALS (e.g. psychologists,  
guidance counselors, social workers, nurse teachers, etc.)

1. Indicate the number of other school service professionals who were involved in comprehensive planning for staff development including the one complete day of staff development. 0
2. Describe the process through which the persons involved in the planning were selected by their peers.

When the president of the teachers association was contacted regarding association participation, no members of this group were selected.

3. Describe the process through which they participated in preparation of the plan.

## PART II NEEDS ASSESSMENT

1. In the space provided below, describe the needs assessment process which was followed to prepare plans for the one day of required staff development. (If your needs assessment included any surveys of teachers, administrators, principals, or others, please attach sample copy(s) of the survey instrument(s) to this form.)

In late May the president of the Beekmantown Teachers Association was approached by the superintendent of schools and asked if the Association would provide four members who would work with the superintendent to prepare the attached needs assessment. The four members selected by the Association were a high school English teacher, a middle school math teacher, fifth grade teacher, and a first grade teacher.

This five person committee met on June 5, 1984 for the entire day to review the materials prepared by the State Education Department and needs assessment instruments prepared by other organizations. Using these formats and areas suggested by the committee members a rough draft of a needs assessment survey was prepared.

Members of the committee worked on the rough draft evenings and on the weekend resulting in a final copy being distributed to the professional staff on June 12, 1984. Over 95% of the staff returned the survey forms by Friday, June 15, 1984.

The committee met again on June 18, 1984 to review the needs assessment survey results and to prepare recommendations for in-service courses, workshops, and other staff development activities from the results of the survey.

After receiving the survey results, the superintendent of schools reviewed PEP, Competency, and Regents results for the past three years. These were compiled for each school in the district using the form suggested for the Comprehensive Assessment Report.

Results were acceptable in all areas except the Business Law Regents Exams where the passing percentages for the past three years were 63, 47, and 54. The teacher of this course needs help, but because this is only one person the help will come from the department chairman and not through a formal process.

With no academic areas needing intensive work due to unacceptable test scores, the executive committee of the teachers association and the superintendent selected those areas of greatest need as determined by the staff survey. Decisions as to how to offer the material needed were made by this group and the building administrators. Content and objectives were finalized by these groups.

2. In the space below, list the goals and objectives for the one day of staff development which grew out of the needs assessment process. List specific activities used to meet the goals and objectives (attach additional pages, if necessary).

## PLANNING FOR STAFF DEVELOPMENT

PART IV  
RELATIONSHIP OF STAFF DEVELOPMENT DAY REQUIRED BY SECTION 175.24 OF THE  
COMMISSIONER'S REGULATIONS TO DISTRICT'S COMPREHENSIVE PLAN FOR STAFF DEVELOPMENT  
FOR THE 1984-85 SCHOOL YEAR

## DIRECTIONS

1. On the page which follows, describe, in an abstract, the relationship of the one complete day of required staff development to any additional staff development activities planned for the 1984-85 school year. Your description should include:
  - a. A complete schedule of staff training for the year which indicates days set aside for training that came both before and after the day required under Section 175.24.
  - b. A summary description of any additional training which teachers, administrators and other school service personnel will receive during 1984-85 and how this training is related to that which is scheduled for the one required day. Include topics and the number of professional staff involved. Please limit your descriptions to no more than two single-spaced, type-written pages.

\*Those submitting Regional Plans may relate the one complete day of staff development to either any additional regional staff development activities or to any additional individual school district/BOCES staff development activities.

## PART IV

ABSTRACT OF RELATIONSHIP OF THE ONE DAY OF STAFF DEVELOPMENT REQUIRED BY  
SECTION 175.24 OF THE COMMISSIONER'S REGULATIONS  
TO OTHER STAFF DEVELOPMENT ACTIVITIES PLANNED FOR 1984-85

The staff development day to be held on October 5, 1984 relates to other in-service or staff development activities in the following ways:

- New Mandates K-12 informs teachers about new requirements and serves as a partial rationale for in-service offerings dealing with computers and writing.
- Improving Student Listening Skills responds to a pervasive problem. It does not, however, relate to other offerings.
- Motivating Students and Rewarding Success stems from the same source as the offering listed above.
- Math Concepts K-6 informs teachers about requirements and serves as a rationale for computer in-service work.
- District Computer Curriculum informs teachers about requirements and serves as a rationale for computer in-service work.
- Administrator-Staff Relationships begins a series of workshops dealing with the relationships between various administrative positions and the teaching staff. These workshops will attempt to improve school climate and productivity.

The schedule which follows contains information on other staff development activities.

INFORMATION, INSTRUCTIONS, SUGGESTIONS

1. MAILING INSTRUCTIONS - Four copies of the SBM-1 have been provided for each school district.
  - a) Independent superintendencies should mail ONE completed ORIGINAL copy to:  
New York State Education Department  
Bureau of Educational Management Services  
Room 3055 Cultural Education Center  
Albany, New York 12230
  - b) A district, under the jurisdiction of a district superintendent, should mail TWO copies to the district superintendent who is requested to forward ONE ORIGINAL to the address above, within two weeks of receipt thereof.
2. This Annual School Budget Form (SBM-1) is for use by all but city school districts.
3. Classification and coding must be consistent with the Uniform System of Accounts. (Please do not create function and/or object codes.)
4. All relative appropriation codes should be used as listed on the SBM-1. Consolidation beyond account codes provided should be avoided.
5. Salaries for "noninstructional" personnel include all employees not certified by the Education Department, such as clerks, stenographers, teacher aides, custodians, and bus drivers. The term "instructional salaries" refers to certified (Education Department) positions including teachers, teaching assistants, and administrators.
6. An approved or contingent budget is essential to provide the district with "opening entries" as close to July 1 as possible. The same budget should be mailed to the State Education Department. Any changes or functional alterations should be submitted at a later date accompanied by authorization for the change (new propositions, other contingent appropriations, etc.).
7. Code 1380.4, "Fiscal Agent Fees" is to be used only if the district does not use the Debt Service Fund.
- \*8. a) Code 1620.0 (page 5) includes anything related to custodial services plus separate energy sources. (Water, telephone, sewerage, are contractual expenses and are not energy sources.)  
b) Code 1621.0 includes anything related to maintenance and grounds care. (There should be a distribution of appropriations in this function.)
- \*9. If there is an entry in DP 87-131, there must be an entry in DP 87-129 and/or DP 87-130.
- \*10. Please be alert to the new appropriation, 2630.46 - State Aided Computer Software, and revenue account 3262 - Computer Software Aid.
- \*11. Please be alert to the new function, 2816 - Diagnostic Screening-Regular School.

In an attempt to simplify the collection of employer contributions, the rates to be paid during 1985-86 will be applied to a single TRS member payroll; i.e., 1984-85. In previous years, the rates were applied to payrolls of two different school years.

Leo Deyo after July 1 at \$5.00 per hour. Mr. Deyo because of his knowledge and experience, will give Clarence the opportunity to assign a task to two or three employees and have it completed without a maintenance man or Clarence checking the job on a daily basis.
